2016/17 Tour Descriptions and Charter Info - Updated May 2016

Helicopter Flight Services operates top-of-the-line, high-performance Bell 407 helicopters outfitted with a spacious cabin seating up to 6 passengers. The high visibility windows have been specially designed for sightseeing which allows 180 degree views; no other helicopter operator in NYC is able to offer these unobstructed views. The Bell 407 has proven to be a safe, fast and powerful helicopter giving an incredibly smooth ride in virtually all conditions. Pilots are specially trained on both the Bell 407 and TCAS, state-of-the-art safety system. TCAS is an onboard radar system that allows pilots the advantage of having a handle on air traffic. All passengers enjoy their flight with voice interactive headsets to hear and speak to both the pilot and each other.
